DETAILED ACTION

1. This office action is in response to application 09/880,106 and amendment filed on 5/16/2005. Claims 1-12, 14-23 and 25-31 remain pending in the application after cancellation of claims 32-93.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Godfrey K. Kwan (46,850) on 7/20/2005.

The application has been amended as follows:

Claim 18, line 10, after "the programmable chip", insert --, wherein the logic information comprises device driver logic for implementing the peripheral on the programmable chip--.

Claim 25, line 11, after "the programmable chip", insert --, wherein the logic information comprises device driver logic for implementing the peripheral on the programmable chip--.

Claim 31, line 9, delete " The system of claim 18,".

Claims 32-93 have been canceled.

The above changes would place the claims in condition for allowance.

EXAMINER'S STATEMENT AS TO THE REASONS FOR ALLOWANCE

3. Claims 1-12, 14-23 and 25-31 are allowed over the prior art of record.
4. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or fairly suggest a method/system for implementing a programmable chip (FPGA, PLD or programmable devices) comprising the following limitations integrating a processor core and a peripheral on the programmable chip, receiving first parameter information and second parameter information, the first parameter information configures the processor core on the programmable chip, the second parameter configures the peripheral on the programmable chip, generating a logic description using the received first and second parameters, wherein the logic description provide logic information for implementing the processor core and peripheral on the programmable chip, and wherein the logic information comprises device driver logic for implementing the peripheral on the programmable chip.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
